Prospect of a Handsome Club House for Bicyclers-Looking for a Site -Other Matters of Interest.

There was a meeting last night of the first subdivision of Associated Charities. It was held at the residence of Mr. J. G. Waters, on 34th street. In the absence of Mr. F. L. Moore, the president, who is now in Florida, but expected home in a few days, and of the vice president, Mr. Thomas H. Looker, Mr. John Marbury called the meeting to order and presided. The report of the secretary was read and discussed, and the amount in the treasury shown. The office of the secretary of charities, which heretofore has been closed to seekers after assistance, on the 1st of April was ordered by the board to be kept open for at least another month. This is in consequence of the continued scarcity of work and the want which follows such a

condition of things.

Mr. B. T. Janney was requested to consult with Mr. Emery of the Washington branch of the charities, for the purpose of seeing whether or not there was anything due Georgetown from the wholesale collections of some months ago.

A regular line of callers daily presents it-Secretary Davis' office, and much is needed to answer the requests for assistance made. Contributions are required to keep the good work going on. Anything used by man, woman or child for the maintenance of life and health is acceptable at At the meeting last night those who dis-

cussed the condition of the poor and devised means for its betterment were Mr. H. F. Blount, Mr. John Marbury, Maj. Bates, Mr. B. T. Janney, Mrs. Samuel Waters, Mr. Joseph W. Davis, Mr. J. G. Waters and others. The next meeting will be held at the residence of Mr. John Marbury. Bicyclers' Club House. The Georgetown Cyclists have given up

While occupy-ing this they will be on the lookout for still better quarters, it being their desire to find a house near Georgetown with grounds suitable to pleasure in. The success of their late fair has enabled them to be a little fastidious in this matter. Their large contribution to the track fund has caused renewed activity among the promoters of that enterprise. A solid founda-

tion has been laid and the walls will be run up hurriedly, much money being expected from several large entertainments excursions and so forth, now under con-sideration. All available large lots in the vicinity have been carefully inspected by the locating committee, and in all proba-bility one on the west side of the creek, beyond the city limits and readily accessi-ble, will be the choice of all concerned. It is beautifully located, level and ample in size. It is thought that the track will not only increase vastly the interest in cycling, but also be a financial success, it being the intention of the wheelmen to hold meets, local, state and national contests thereon. It will probably be run by a stock company, composed of wheelmen, every one in the District being allowed to sub-Tracks in other cities are big successes,

Tomorrow the Georgetown Cyclists will leave 14th and Boundary streets at 5:30 a.m. on a century run, Frederick will be the fifty point. It is expected to make the entire 100 miles n thirteen hours, City Consolidation.

The Georgetown people are somewhat curious to know why such usually progressive citizens as the presidents of the four title companies have protested against the consolidation of Georgetown with Washington. It has been explained to The action of these gentlemen is occasioned by reason of the duplication of the squares in

the two places.
Georgetown thinks that smart lawyers should be able to cope with a situation of this kind, should the change be made. They say that if Congress should pass a law call say that if Congress should pass a law call-ing the two cities Georgetown that their lawyers would be able to prevent any con-fusion of records occasioned thereby. Is not this a trivial reason, they say, for preventing what is regarded as a progressive

The attendance was large and under the good of the order the noble commander suggested an expression of opinion on the question of appointing a committee to act with similar committees from sister commanderies for the formulation of a plan to consolidate the eleven commanderies, and abolish the grand commandery. The noble commander advocated the appointment of such a committee, believing that by consolidation a larger attendance at meetings could be secured,

and the large amount of money now ex-pended could be used to further the fra-ternal features of the order. The plan was favored, in remarks by Knights A. H. Stamp, W. S. Stetson, Jas. S. Sharp, John C. Swift, Jos. Trainor, Thomas Humphrey, R. D. Meston and others. The question of making the grand commandery a representative body was also discussed, and both subjects laid over until the next meeting.
